AUSTRALIAN Breast Device REGISTRY

Your ABDR-Surgeon ID number : X

Dear Dr ...,

31-Oct-2019

Your 2018 Australian Breast Device Registry Report

We are pleased to provide you with a summary of your contribution to this registry that captures procedures from 1st January to 31st December 2018. This report will not be released to anyone outside the project team at Monash University. Your Site report includes data on:

- Sites, Patients, Operations (page 2)
- Reason for procedures and revisions by breast (page 3)
- Reason for procedures and revisions by patient (page 4)
- Issues identified at revision, revision types and reasons for revision by patient (page 5)
- Incision sites and surgical plane by breast (page 6)
- Elements of operations by breast (page7)
- Intraoperative techniques (page 7)
- Devices by type, fill, shell, shape (page 7)

-Please note if any figure is blank it means that we do not have data for it in our database.

SAMPLE

What we need you to do:

- Continue to send data collection forms for ALL procedures in the operating theatre involving breast devices, including insertions, revisions and explants. Data capture on EXPLANTS are very important to ascertain safety of breast devices in all patients. Note: one procedure (including explants and any return to theatre) = one form.
- Inform us of newly qualified surgeons performing breast device surgery at your site(s).
- Tell us how to make the reports more useful for you: Please provide feedback via email at abdr@monash.edu or via telephone on (03) 9903 0205.

Thank you for your contribution to the Australian Breast Device Registry. Your participation in this important health initiative is vital to long-term patient safety and best practice.
Clinical Leads for respective craft groups have reviewed the format of this report (not your data) and may be contacted for further information:
A/Prof Elisabeth Elder, Breast Surgeons of Australia and New Zealand (BreastSurg ANZ), elisabeth.elder@sydney.edu.au;A/Prof Colin Moore, Australasian College of Cosmetic Surgeons (ACCS), colin@drcolinmoore.com.au; Dr Gillian Farrell, Australian Society of Plastic Surgeons (ASPS), gillian@gillianfarrell.com.au
If you have any questions about the report or the ABDR, please contact our team (03) 9903 0205.

Yours sincerely,
ABDR
